COMING UNIFORM RANK ENCAMPMENT

The members of Schafner company, U R K P, are drilling every Tuesday night in anticipation of the coming encampment of the Fifth Regiment to be held in this city at Todds Grove from August 10 to 18. The boys expect to be able to compete with any of the visiting teams and from their work it certainly seems that they will be able to hold their own with any of the crack companies. Colonel Abe Marks of the fifth regiment reports that the other companies are all taking an active interest in the encampment and that he is besieged with correspondence regarding it.

The companies in the Fifth regiment are; Eureka, Ferndale, Arcata, Woodland, Vallejo, Napa, Crockett, Healdsburg, Ukiah, Willits and Fort Bragg and comprise over 1,000 men. So far Col Marks reports that he has assurance that the following companies will be in camp: Eureka, Napa, Vallejo, Fort Bragg, Willits and Ukiah. The best of the news is that the old Mare Island band has reorganized for the occasion and will be present with sixteen pieces. This band was famous on the coast for its music and will be a great attraction to the camp. It means that there will be band concerts and dances galore for the amusement of visitors to the camp.

The camp in the grove will be under regular military discipline the tents for the occasion having been furnished by U S Government. To get things in readiness for the encampment a detail will be here several days before the encampment to lay out the grounds and pitch the tents. The comisary department will be in charge of Regimental Quartermaster Capt Keller of Willits who will attend to purchasing rations and supplies for the boys.

The encampment will be worth a great deal more to the town than a national guard encampment as the boys are all business and professional men of the best class and are sure to conduct themselves as gentlemen should. For most of them this will represent their summer vacation and many of them will be accompanied by their wives and fami ies who will be quartered at the hotels. Col Marks has received a number of letters making enquiry about accomodations and is giving the matter his earnest attention at present as he feels that the visitors must receive nothing but the best of treatment. General McGlashan and his staff will pay a visit to the camp during the week.

No demand has been made on the citizens of this city to help defray expenses of the encampment and defray expenses of the encampment and despite the fact that several other cities were activly biddfng for it Col Marks insisted that it should be at this city. Santa Cruz offered to furnish the grounds and the camp ready for occupancy and the bands as an inducement to secure it. The Col deserves great credit for his stand in the matter and should be aided in every way in making the stay of the visitors a pleasant one. The boys expect that the town will furnish the water and lights for the camp and fix the platform in condition for dancing. This is all that will be asked and is a matter of a very few dollars. Besides providing an enjoyable week for the residents of this city the encampment will bring Ukiah into prominence in a very enjoyable manner. It will be an advertisement of no small value to us.

Camping For The Summer

Dr Dickinson and family and a party of friends are camped at the doctors claim in Reeves canyon. The doctor reports that there are about fifteen in the party at present but before the summer is over there will be in the neighborhood of fifty.

SOME MORE ABOUT THE NEW CREAMERY

The directors of the Yokayo creamery held a meeting Wednesday night and estimates for the building and machinery were considered. It was decided that the building shall be 30 by 50 feet. The entire floor will be of cement and the walls for four feet up will be of the same material from there the structure will be of wood. The thirty foot front will be made of heavy plate glass and the building will present the appearance of a modern store.

Directors Sandelin and McCracken were appointed a committee to visit San Francisco and inspect the proposed machinery offered by the different companies. They will also visit several creameries in search of information regarding the machinery and business. It has been found that the location is an ideal one as the new sidewalk grade gives ample fall so that gravity machinery can be installed. This will cut out the necessity of installing an expensive pumping plant to handle the cream. Several dollars will thus be saved.

The bonds of the secretary were fixed at $1000 and the treasurer $4000 and will be furnished by a surety company. The great idea of the directors is to keep down expense and only a small compensation will be allowed the secretary. The other officers draw no salary.

Several good butter makers have already applied for a position but as yet no one has been selected. The desire is to secure a good allround man. The farmers are very much interested in the matter and all assurances are that the project will be a success from the start- Over $1000 of the stock has already been paid for.

Mathews Will Not Copy It

An error was made in reporting the proceeding o. the board of supervisors for this month when it was stated that Auditor Mathews was authorized to copy the financial statement. The paragraph should have read that Auditor Mathews had been authorized to have the copy for the financial statement prepared at a cost not to exceed $100. Naturally Mr Mathews would not have time to prepare the financial statement copy as he is working over time to keep up with the duties of his office. Incidentally Chas is making a first class auditor and an able successor to Frank Caughey much to the satisfaction of the many friends he has throughout the county.

Both Club Deserve Praise

In reporting the play given by the Cultus club last week an error was made in stating that this club had presented "As You Like It." While several of the same ladies took part in this play the public was indebted to the Saturday Afternoon club for the entertainmint. Both clubs have been very generous in their entertainment of their friends and all of their entertainments have been so successful that it would really be an injustice to credit one with any of the others fetes.

Popular Couple Wed At Fort Bragg

Harold J Barnard and Miss Olga Berkovitz of Fort Bragg were married in that city Monday by Justice Whipple. The bride is a handsome and accomplished young lady and the groom is one of the younger business men of the coast being interested in one of the largest stores in Fort Bragg. He is the son of Supervisor and Mrs Leonard Barnard.

Ukiah Firms Get Contracts

C P Smith and L Edwards, the local butcher firms, were awarded the contract for the meat for the Mendocono State hospital for the coming year. Their bids were as follows: beef, $.062 a pound; $.09 for mutton and $.10 for pork. J W Eversole secured a contract for furniture; A P Brunner of kitchen hardware and B S Hirsch for liquors.

Contest Closes Saturday August 6, at 6 P. M.

The vacation contest is booming and these warm days are impressing it on the minds of the contestants that a week in San Francisco is worth working for. The list of votes this week shows remarkable activity among the contestants. Our subscribers are realizing that the honor of entertaining these children for a week will be in a large measure theirs. Without their cooperation the Press could not do it. It is the support of our subscribers that makes the plan possible.

A week spent in one of the largest cities of the world with congenial companions cannot be estimated in value and especially when those who enjoy the vacation will do so absolutely free of charge. The rustle and bustle of city life will make a lasting impression on the minds of the children. They will conceive new ideas and return to their homes with a broader knowledge and will be better fitted for progressive men and women They will be better able to understand what is good for the community in which they may choose to reside.

Nothing broadens the mind like travel. The best thing to fit us for the struggles of life is to observe the actions of our neighbors We can profit by their experience. To be successful we must know how other people do the things that we are endeavoring to do. The large stores, the theaters and places of amusement, will be visited there will be ample opportunity to watch the citizens of one of the cities of the world both at work and at play.

Among the other places of interest that will be visited will be the United States mint where men and women are making the money that we use as a medium of exchange. It will also be remembered that the mint although located in the heart of the burned district was one of the buildings saved. The new post office building, another one of the buildings saved from the fire and a magnificent edifice, will also be visited and the magnitude of the mail handled in a large city can be conceived. A visit will also be paid to the offices of the large dalies and it can be seen the immense amount of labor required to furnish the people the daily news.

The places of interest are too numerous to mention. The thing however that will be a pleasure to all will be the day spent in an automobile traveling over the city. In this way all of the city can be seen and the pleasure will not be marred by the fatigue that would result from trying to cover the ground in any other manner. The complete itinerary for the trip will be decided upon in advance so that no delays will occur and the most can be seen in the weeks time.

The contest will close on August 3rd and no votes will be accepted at this office after 6 p m. Two or three days will then be allowed for the votes to arrive from the outside districts for the final count. The postmark on the letters will determine when they were mailed. Well known business men of this city will be selected to make the final count and the contestants themselves or their friends are requested to be present. The winners will be notified by telephone or telegraph where ever they can be reached and if there is any that cannot be reached in this way they will be nottfied by mail.

Several of the contestants have not yet sent their photos to this office as requested and it is necessary that they be received as soon as possible. With the photo send a short sketch of your life. Our subscribers have expressed a desire to have pictures of the contestants printed and in ordor to do this it is necessary to have the photos.

Clerk McCowen states that he has not received any of the hunter's licenses as yet from the fish commission. It is both a realty and chattel mortgage on all of the properties of this company and included the proposed line from Willits to Eureka and other proposed lines, all the rights of way and rolling stock, depots and other properties of the company. The mortgage was given to the Farmers Loan and Trust company and calls for $35,000,000.

HAPPENINGS FROM MENDOCINO CITY

The body of Emio Cubero, the Spanish fireman of the steamer Coquille River, who was drowned while gathering abalones at the Point on May 21, was found Wednesday, says the Mendocino Beacon. Perry Stanley and his crew of electric linemen saw the body earlier in the day in a cove north of the steamer's berth but the undertow carried it out before it could be secured. Capt R I Sangberg, master of the Coquille River, discovered the body floating near his vessel and had a boat lowered and the body taken care of It was a queer coincident that the body of the fireman man should have been found by the master of his own vessel after the l[illegible] of over three weeks.

SCHOONER ALCAZAR LOST ON ROCKS

The steam schooner Alcazar, owned by the L E White Lumber Co., is ashore at Needle Rock with apparently poor prospects of being floated, says the Beacon. The steamer left San Francisco last Friday in ballast for Needle Rock and in a rough sea Monday night went on the reef. All hands were saved. The Alcazar has hitherto had a lucky existence. Built in 1887 by A Hay, of San Francisco, the steamer has plied regularly in the coast trade for this score of years. From all accounts, however, the vessel will be a wreck where she lies. The steamer was under command of Captain Fagerland.

NEW SCHOOL HOUSE FOR MENDOCINO

The school bond election Tuesday carried by more than the required two thirds majoirty, says the Mendocino Beacon. The total vote cast was 111, 87 votes for and 24 against. The Big River grammar school can now, with the $6,000 which will be obtained from the sale of the bonds, have a school building and equipment second to none in the county. The people may congratulate themselves upon the good judgment shown in giving the trustees an opportunity to make the necessary improvements. It will be necessary to rush the work as much of it must be completed before school begins late in August

NOLAN WILL RECOVER

In an altercation at Caspar last Sunday between Ves Nolan and Henry Fryer concerning a board bill the latter cut Nolan with a pocket knife. Ves was taken to the hospital here and will get well, Mendocino Beacon. Fryer was arrested on a charge of an attempt to commit murder. His examination was held here before Justice Murry Wednesday and the case was thrown out. Louis Gonsalves represented the prosecution and J K Peirsol the defendant.

KINDNESS TO THE DUMB ANIMALS ITS OBJECT

A letter was received this week from Avis Gibney of Chicago regarding the organization of a society for the prevention of cruelty to animals in this city. This is a society which does a great deal of good espesially in the larger cities and probably would not be amiss in this city. For the benefit of those who may be interested in the work the letter is published below.

CHICAGO, June 12—When in Santa Rosa last winter I was told that there is need of a society for Prevention of Cruelty to animals in Ukiah, just as there is in every town where no such society exists. I intended going to your city but was going to try to organize a society and I address you thus asking for your aid. I trust that you are to a certain extent interested in humane work—I find men are more humane than women. Perhaps I am asking too much of you, but that which is worth having is worth asking for.

Will you do me the favor to put an item in your paper stating that the Sonoma county societies at Santa Rosa and Healdsburg are desirous of organizing a like society in Ukiah, to be governed by the state laws and ask all those interested in such work to send their names and address to your office.

While on my vacation last winter I organized with the aid of the best people in Santa Rosa and Healdsburg a society in each town, and it has been surprising the amount of good accompanied. Please understand that no one gets any money out of this. As to my standing I refer you to Father Casin and J R Smith, sherriff, both officers in the Santa Rosa society also Geo Miller secretary of the Healdsburg society and McCurrie sec'ty of the San Francisco society. These societies are self supporting, membership yearly dues$1.00.

You probably know of my grandfather Wm Henry, Judge of your county some years ago. I have often visited your city hence my interest in the work there. There is a Ukiah woman greatly interested in humane work but I do not know her name. Please forward all names to me 1037 East 57 street, Chicago. 2nd. Thanking you in anticipation, I am very truly AVIS GIBNEY.

Rain Insures Fine Crops

A heavy rain began to fall shortly before midnight Monday and lasted until 6 o'clock next morning. Another good shower fell Tuesday and Wednesday nights. An immense amount of good will result.—Point Arena Record.

A nice pair of outing trousers is just the thing for summer. Get a pair at the model.

Fire Insurance Protects You

That is if it is the right kind. If a man does not pay his debts you don't trust him. If a fire insurance company does not pay you should not trust it. You pay an insurance premium for a certain amount and if your house burns you expect that amount. Anything less will not satisfy you. If the has lost millions that is not your fault, you want your money. Tee way to know that you will get your moneyis to patronize the insurance company that has paid. My companies are dollar for dollar companies. The rates are the the same.

HATTERS, CLOTHIERS, HABERDASHERS

A Square Deal

Is assured you when you buy Dr. Pierce's family medicines—for all the ingredients entering into them are printed on the bottle-wrappers and their formulas are attested under oath as being complete and correct. You know just what you are paying for and that the ingredients are gathered from Nature's laboratory, being selected from the most valuable native medicinal roots found growing in our American forests and while potent to cure are perfectly harmless even to the most delicate women and children. Not a drop of alcohol enters into their composition. A much better agent is used both for extracting and preserving the medicinal principles used in them, viz.—pure triple-refined glycerine. This agent possesses intrinsic medicinal properties of its own, being a most valuable antiseptic and antiferment, nutritive and soothing demulcent.

Glycerine plays an important part in Dr. Pierce's Golden Medical Discovery in the cure of indigestion, dyspepsia and weak stomach, attended by sour risings, heart-burn, foul breath, coated tongue, poor appetite, gnawing feeling in stomach, biliousness and kindred derangements of the stomach, liver and bowels.

Besides curing all the above distressing ailments, the "Golden Medical Discovery" is a specific for all diseases of the mucous membranes, as catarrh, whether of the nasal passages or of the stomach, bowels or pelvic organs. Even in its ulcerative stages it will yield to this sovereign remedy if its use be persevered in. In Chronic Catarrh of the Nasal passages, it is well, while taking the "Golden Medical Discovery" for the necessary constitutional treatment, to cleanse the passages freely two or three times a day with Dr. Sage's Catarrh Remedy. This thorough course of treatment generally cures the worst cases.

In coughs and hoarseness caused by bronchial, throat and lung affections, except consumption in its advanced stages, the "Golden Medical Discovery" is a most efficient remedy, especially in those obstinate, hang-on coughs caused by irritation and congestion of the bronchial mucous membranes. The "Discovery" is not so good for acute coughs arising from sudden colds, nor must it be expected to cure consumption in its advanced stages—no medicine will do that—but for all the obstinate, chronic coughs, which, if neglected, or badly treated, lead up to consumption, it is the best medicine that can be taken.

MRS DYKE SOLD THE OLD COW ALL RIGHT

A couple of weeks ago Mrs John Dyke called and inserted an ad relating that she had a cow for sale. The cow was sold Saturday to the first man that showed up after seeing the ad. This was alright and pleased the Dyke family. When the second and third and fourth fellow showed up in answer to the ad John was pleased but when it run on to over a dozen he said it was too much of a good thing. He dropped into the office and ordered the ad out and said that if any one else showed up asking about the cow that there was going to be trouble and that the Dyke was liable to break and inundate the Press office.

As this is the second time that the Dykes have got good results from advertising in the Press—once Mr Dyke lost the saddle off his horse on his way home and found it the next day through a want ad in the Press—and the total cost to the Dyke family was only four bits we consider that he is an ungrateful cuss. And be it further resolved that if he had possessed half the business ability we thought he had he would have prepared himself for this emergency and stocked up with cows before advertising. Motto: When you advertise in the Press stock up on the commodity you are dispensing of keep it to yourself if you are flooded with inquiries after you have sold out.
